Product Choice

Produced in Australia, Sodashi products are 100% natural, luxurious and effective. In ancient Indian Sanskrit, Sodashi translates to "wholeness, purity and radiance" and these words aptly describe Sodashi products and unique Spa treatments. Sodashi's skin and body care products and Spa therapies use only natural sources from the earth and sea, including extracts and essential oils of the purest and highest grade.

Information on Vinotherapy

Vinotherapy involves using grape seed extracts which happen to contain some of nature's most powerful antioxidants. These antioxidants are fifty times the strength of vitamin E and ten times the strength of vitamin C. The grape products are rich in collagen and firm the skin and slow down the aging process. The infusion of the extracts of grape will introduce healing properties and rejuvenate.

Products such as red grape extract, micronised vines, wine leaves, grape skins, yeasts, grape seed oil, red wine or muscatel wine are used to stimulate the production of collagen, combat free radicals and prevent the premature aging of the skin, as well as improving blood circulation, stimulating the immune system and combating fatigue.
